Dear Parent/Guardian,

Pennsylvania State Law requires that all students entering 11th grade have a current physical examination on record. In order to be compliant with the law, please make an appointment and have your child examined by the doctor. A 2nd meningococcal vaccine is also required for 12th grade and you may have your child receive the vaccine now as long as they are age 16. Please have the doctor complete the Report of Physical Examination included with this letter and enter the date of the #2 meningococcal vaccine below. Return the completed form to the school nurse when school reopens.

#2 Meningococcal vaccine _____
(date)

Ideally, all medications and treatments should be done in the home. However, if your child requires medication during the school day, please call 267-460-1121 before sending any medication to school for instructions and the medication order form (MED-1).

Please alert the school nurse with any changes to your child's health/medical history so it can be determined if your child needs an individual health plan. Thank you in advance for your cooperation. Please call 267-460-1121 if you have any questions or concerns.

Sincerely,

Cathy Taggart BSN, M.Ed., RN
Certified School Nurse
